Brit supplemental cyber questionnaire

Important

- This application is for a 'claims made' policy. If a contract of insurance is subsequently purchased by the Applicant, cover will only apply to claims first made against an Insured during the policy period.
- This application will attach to, and form part of, the policy. The limit of liability available, under a policy, to pay claims will be reduced by amounts incurred for defense of such claims. Amounts incurred for defense will also be applied to the retention amount stated in the policy.
- It is important that all questions are answered fully. Please use separate sheets as attachment to the application if there is insufficient space on the application itself.
